I. HALVÅR 2021

- Værdien af doneret medicin og hospitalsudstyr over 200 mio kr / The value of donated medicine and equipment over DKK 280 million.
- Side 3 og 4 er på engelsk/
Pages 3 and 4 are in English

Beskedne donationer

Værdifuld lagerbeholdning

Økonomisk konsolidering

I alt doneret medicin og hospitalsudstyr for 247.942.964kr siden stiftelsen i 2010

MEDICIN OG UDSTYR:

Burundi: Medicin og hospitalsudstyr til First Lady og organisation

Somalia: Medicin og hospitalsudstyr til Sundhedsministerium

ØKONOMI:

Økonomien er på kort sigt konsolideret, hovedsageligt på grund af den ringe mængde forsendelser, ingen kontrolrejser og besparelser i øvrigt, men det må forventes at forsendelserne øges væsentligt i andet

halvår af 2021, og at det bliver nødvendigt at foretage en del kontrolrejser, ligesom aktiviteterne er fortsat stigende med deraf følgende øgede udgifter.

Der er en del fonde, der støtter GMA regelmæssigt – og dette er af uvurderlig betydning - men med det efterhånden høje udgiftsniveau som følge af de store aktiviteter, er GMA selvfolgelig i større grad afhængig af indtægter, der desværre ikke følger udgiftsstigningerne og ej heller ligger fast.

Endvidere er det på grund af udløbstiden nødvendigt, at medicindonationer fremsendes med fly og store forsendelser er meget dyre.

Det må derfor forudsесs, at økonomien igen bliver anstrengt.

Apoteker i Burundi / Pharmacist in Burundi

VÆSENTLIGE BEGIVENHEDER:

Værdien af GMA's donationer, fordelt på tre containere, udgjorde 9.591.536 mio kr.

I februar stillede et medicinalfirma i Jylland næsten 50.000 penicillin-doser til rådighed. En 40 fods container blev håndlæsset på grund af mængden af medicin, men rummede kun cirka 2/3 af medicinen, hvorefter den resterende mængde blev transporteret til lageret i Skibby, hvor medicinen blev læsset i en container sammen med andet udstyr. Den første container blev sendt til Burundi, medens den anden container blev sendt til Somalia.

Den samlede mængde medicin fyldte 91 paller og er den hidtil største mængde medicin, som er stillet til GMA's disposition

Der blev optaget en 17 minutter lang video om pakningen af medicinen fra medicinalfirmaets lager, videoen blev udsendt adskillige gange i fjernsynet.

Et større hospital har doneret et stort antal maskiner, fortrinsvist til laboratoriebrug, samtidig har GMA modtaget 6 paller med nyt laboratorieudstyr og maskiner fra et privat firma.

Som følge af de få forsendelser er lageret nu igen næsten overfyldt, bl.a. er der cirka 200 senge, men det forventes, at der vil være adskillige forsendelser i andet halvår 2021 allerede på grund af de mange værdifulde effekter, der er ved at blive indskrevet på lister, der sendes til interesserede lande.

Der er indledt et samarbejde med Sundhedsministeriet i et nyt land, Somalia, der allerede har fået tilsendt én container, en anden sendes primo juli – GMA har nu sendt containere med hospitalsudstyr og/eller medicin til 17 lande.

Der er indledt et lovende samarbejde med Baptist Kirken i Danmark, der har gode kontakter i Ghana, således at der som hidtil kan blive doneret medicin og udstyr dertil.

**Tak til alle, der har
ydet en indsats for
Global Medical Aid.**

**Med venlig hilsen
Hans Frederik Dydensborg**

Modest donations Valuable inventory

Financial consolidation

Total amount of medicine and equipment valued at DKK247,942,964 donated since beginning in 2010

MEDICINE AND EQUIPMENT:

Burundi: Medicine and hospital equipment for First Lady and organization

Somalia : Medicine and hospital equipment to Ministry of Health

FINANCES:

In the short term finances have been consolidated, mainly due to the limited number of shipments, no inspection trips, and

overall savings. However, it is to be expected shipments will increase significantly in the second part of 2021. This will lead to a necessity for more control trips, and the activities are still on the rise which will lead to increased expenses. There are a number of foundations supporting GMA on a regular basis, and this is of invaluable meaning, but with higher expense level following the great number of activities, GMA are naturally to a larger degree dependant on income which unfortunately does not follow the rise in expenses, and neither are at a steady level.

In addition, due to the expiration date it is necessary for medicine donations to be sent via air freight, and large shipments are very expensive.

It is to be expected that finances once again will be strained.

NOTEWORTHY EVENTS:

The value of GMA's donations, split over three containers, amounted to DKK9,591,536.

In February a medical company in Jutland made almost 50,000 doses of penicillin available. A 40 foot container was loaded by hand due to the amount of medicine, but it only held about 2/3 of the medicine. The rest of the medicine was transported to the warehouse in Skibby where the medicine was loaded into a container along with other equipment. The first container was sent to Burundi whilst the other container was sent to Somalia.

The total amount of medicine took up 91 pallets and is the largest amount of medicine ever to have been put at the disposal of GMA.

NOTEWORTHY EVENTS (continued):

A 17 minute video was shot showing the packing of the medicine from the medical company's warehouse. The video was shown several times on Danish television.

A larger hospital has donated a large quantity machines, mainly for laboratory use. At the same time GMA has received 6 pallets of new laboratory equipment and machines from a private company.

Due to the few shipments, the warehouse is once again close to being overflowing, including almost 200 beds. However, it is expected that several shipments will happen in the second part of 2021 due to the many valuable items being catalogued, and this documentation is shared with the interested countries.

Cooperation with the Ministry of Health has been initiated in a new country, Somalia, has been initiated. They have already received one container, and another was due in the beginning of July. GMA have now sent containers with hospital equipment and/or medicine to 17 countries.

A promising cooperation with the Baptist Church of Denmark, who have good connections in Ghana, has begun. This way GMA can continue to donate medicine and equipment to the country.

Pakning af visirer fra lageret i danmark / Packing of visors at the warehouse in Denmark

Latest news:

Expenses are increasing significantly
